

### A month since reopening

The first month's turnout surpassed expectations, and the percentage of Italian visitors has been much higher than in the past. Perhaps it indicates a positive growing attention by the national public for the country's hidden treasures.

### A completely renewed breakfast service

## Surroundings

Work is underway to improve the nature park area from Lake Vigi to the Rote waterfalls. There you can observe a great variety of flora and fauna typical of the area, only 5Km from Postignano.

## Customers' reviews

### The dream

"An experience out of time. Our room was a charm, everything is new and done with extreme attention to detail. We had a small apartment with two bedrooms, a sitting area and a bathroom. Cleaning is at levels of excellence and beyond! The furniture is period and very refined. The panoramic view from the windows is wonderful, it overlooks the village and the hills that surround it. The village has a high-level renovation, nothing is out of place. There are stairs and also an elevator. The staff are extremely helpful and everyone seems to be there to make you feel like the princess of the castle. We also enjoyed the swimming pool which can be reached a few steps down from the castle, also immersed in an oasis of greenery, and each umbrella with sunbeds has its own private green space (privacy and Covid proof). We dined and had lunch at the restaurant of the castle "the Casa Rosa" and we enjoyed it, nice and tasty dishes, excellent staff. The rich and varied breakfast, as well as the aperitif, are served on a panoramic terrace overlooking the surrounding landscape with soft and harmonious hills, I am grateful to those who decided to build such a dream and make it come alive. Thankyou thankyou thankyou"
